TRFA01 Battery-Powered Fuel and Liquid Transfer Pump

The TeraPump TRFA01 is the world's first battery-powered fuel and liquid transfer pump with Auto-Stop and leak protection.

Designed to be intrinsically safe and CSA-approved, the TRFA01 safely pumps gas, diesel, kerosene, water, and even light oils at rates up to three gallons per minute. The TRFA01 eliminates the lifting and tilting of large heavy gas cans, spilling wasted fuel. The exclusive design makes transferring fuel to boats, outboard tanks, outboard motors, jet ski's, generators, and non-marine equipment pain-free, spill-free, and hassle-free. Includes three different size adapters to fit most portable "Jerry Jug" type cans.

TRM20 Manual Transfer/Siphoning Pump

The Terapump TRM20 is an affordable manual transfer/siphoning pump designed for quick and easy flow of gas, diesel, kerosene and water from portable cans.

- Eliminates heavy lifting and potential spillage
- Includes 3 different size adapters to fit most "Jerry Jug" style cans
- Flexible, up-and-down operated spring-type bellows allow smooth operation and high flow discharge

TREP01 Battery-Powered Portable Fuel and Liquid Transfer Pump

The TeraPump TREP is a portable, hand-held pump for emptying fuel tanks and all around needs on your boat, in your garden, or in the shop.

The TREP can transfer up to 3.5 gallons of liquid per minute, saving time and energy. Applicable liquids are gas, diesel, kerosene, water, light oils, DEF, windshield washer fluid, mild detergents, and even agricultural chemicals.

TREDRUM-S Drum Pump, 120VAC

Eliminate tiresome hand pumping with the TeraPump fluid transfer pump.

The TeraPump model TREDRUM-S Drum Pump is an affordable electric (120VAC) drum pump you can use to transfer antifreeze, diesel, kerosene, DEF, windshield washer fluid, water, agricultural chemicals, light oils and much more. The transfer rate of 5 gallons per minute reduces time and energy over manual hand pumps, saving shop labor-time too. It comes standard with an AC adapter. It fits standard 55 gallon drums to a depth of 34" and includes a gas-station style nozzle on a 79" hose for easy filling. It also includes a cleanable filter, a 2.4" wide-grip, bung-plug adapter and a 2" NPT to 2" buttress adapter as well.

FEATURES

- Operates on 120V AC
- Safe for use with a wide range of fluids, including antifreeze, diesel, kerosene, DEF, windshield washer fluid, water, agricultural chemicals and light oils
- 5gpm capacity
- Fits 55-gallon drums to depth of 34"
- Includes gas station style nozzle, 79" hose, cleanable filter, bung plug adapter, 2" buttress adapter, AC adapter
