

DOCK EDGE INC.

ALUMINUM SLIDE-UP

These up-&-out ladders slide easily up and out of the water when not in use. Heavy marine grade aluminum rungs and hangers mean that you'll have long and reliable service and an attractive addition to your marine application. Convenience cords for raising and lowering the steps may be added to this ladder at any time.

Rail Height: 19-3/4" above the dock

Distance to first step: From dock surface, 11" & 12" between steps.

Steps: Are 2" deep and 15" wide.
Capacity: 665 lb. (300 kg).

-5 Step Dock Ladder **#2035-F**

-7 Step Dock Ladder **#2037-F**
